**College Counseling Parent Response Form**

Son's Name \_\_\_\_\_

**To The Parent:**

It's important to learn as much as we can about your son to assist him in the college planning process. We get to know him through a variety of ways: transcript, self-assessment, resume, essays, individual meetings, comments from teachers, and what you can tell us about him. Please take some time to give us some insight about your son and to share some stories you have about him. If you'd prefer to send us a letter, that will be fine, too. This information will be useful when we write his counselor letter for his college applications.

Thank you!
